PROJECTS

Personal Portfolio
11/2026 - Present

Tech: React.js, Tailwind CSS, Vite

- Developed and deployed a responsive portfolio website showcasing my projects with live demos and source code.

Live: dev-ahmedissa.github.io/ahmed-issa-portfolio | Code: github.com/dev-ahmedissa/ahmed-issa-portfolio

Cultural Weaves - E-commerce Website
07/2026 - 08/2026

Tech: HTML5, CSS3, Bootstrap, JavaScript

- Built a responsive online store for Palestinian cultural products with registration, login, and logout pages.
- Implemented product search by name and category, and a shopping cart with a live item counter.

Live: dev-ahmedissa.github.io/cultural-waves | Code: github.com/dev-ahmedissa/cultural-waves

PowerFitGym - Gym Website
07/2026

Tech: HTML5, Tailwind CSS

- Built a fully responsive fitness club website with services, trainers, statistics, and contact sections using Tailwind CSS.

Live: dev-ahmedissa.github.io/powerfit-gym | Code: github.com/dev-ahmedissa/powerfit-gym

BrightPath - E-learning Platform Interface
07/2026

Tech: HTML5, CSS3, Bootstrap

- Designed a fully responsive learning platform interface with a hero slider and course categories (HTML & CSS, JavaScript, React, Full-Stack, Next.js, Tailwind CSS).
- Added instructors, news, and subscription sections with a dropdown navigation menu.

Live: dev-ahmedissa.github.io/bright-path-learning | Code: github.com/dev-ahmedissa/bright-path-learning

A.Z. Fashion Line - Fashion Store Website
11/2025

Tech: HTML5, CSS3

- Built a desktop fashion store layout with men, women, and baby collections, trending products, testimonials, and a newsletter section.
